The history of the Norden Stamm kennel goes back more than thirty five years. It's founder, Jens Kollenberg, bought his first Dobermann at the age of 25 years and he started breeding Dobermanns in 1968. As well as breeding and showing, he has trained and competed with several Schutzhund 3 and FH dogs. He has many High in Trial awards to his credit and has competed successfully at National events in the USA, Germany and Norway. The secret of the kennel's success probably lies in the fact that he and his wife are hands-on breeders/ handlers/ trainers. No doubt, his extraordinary natural canine talent and his long term commitment to sound breeding principles has simply been reflected in the ongoing successes with more than 50 self-bred, self-made national and international Champions.

**Kastra v. Norden Stamm**  
(Ch, Sieger *Ebo v.d. Grootte Maat*, SchH1 x  
Ch. & Siegerin *Alida v. Flandrischen Loewen*, SchH3 FH)  
Kastra is 1990 State (German) Working Champion,  
DV Meisterschaft qualifier,  
SchH3, Angekoert, ZTP V1A.  
Mother of Siegers & Specialty Winners,  
Champions and working champions.

**Drago v. Norden Stamm** - 10 weeks on photo  
(Multi-Ch. & multi-Sieger *Guys Hilo v. Norden Stamm* x  
SchH3 - *Alma v. Ferrolheim*).

The early purchase of two German stud dogs, Tex v. Franken land and Ino v. Eichenhain, set the pace for the kennel's first breeding successes and its huge international influence later down the track. Dogs from the Norden Stamm kennel have enjoyed consistent success and have strongly influenced the successes of numerous other important Dobermann kennels, as well as having an enormous influence on the general development of the breed world wide.

One of the Norden Stamm kennel's most famous representatives would undoubtedly be the multi-champion, multi-Sieger dog, Guys Hilo v. Norden Stamm, Sch.H. 3, ZTP V1A. The German Kor-Meister and DV, SV and ADRK judge, Ottmar Vogel, wrote in his book, "it would be hard to imagine the Dobermann in Europe today without Hilo." A multi-Champion and multi-Sieger dog, Hilo sired four Bundessiegers (German National Champions), over 100 Champions and was Europe's leading sire in the Seventies. He was shown 27 times in 5 countries for 25 Best Of Breeds and also won High In Trial at the yearly Police Dog Trials in Luneburg/Germany in 1977 with Jens handling

The kennel's Hilo descendants, the multi-Siegerin and multi-Champion Kalina v. Norden Stamm, Sch.H. 3, HIT, ZTP V1A, etc. and multi-Champion and multi-Siegerin Mia v. Norden Stamm, Sch.H. 3, IPO 3, FH, ZTP SG1A, etc. are two of the most titled Dobermanns in the history of the breed. Kalina is also the most titled Dobermann ever to be imported into the USA. Since 1968 the Norden Stamm kennel has consistently bred reproductive, conformation, National Champions, Sieger and Winner dogs, and working champions for breeders and fanciers in 29 countries on 5 Continents (including co-breeding the 1990 DPCA Reserve USA National Champion). Just during the Ninties alone, ten different Norden Stamm dogs won eighteen different National Champion, Sieger, National Specialty and Winner titles in eight different countries! And also during the Ninties, thirty two dogs with a Norden Stamm parent won fifty-five different National Champion, Sieger, National Specialty or Winner titles in eleven different countries. The Norden Stamm dogs are highly prized, not only for their proven powers of hereditary transmission, but also for their reliable working ability a result of using generations of leading European dogs combined with the fact that both Alison and Jens Kollenberg are hands-on trainers, Schutzhund competitors, and also Schutzhund judges. One merely need look behind the vast majority of the modern winners with European blood today and you will invariably find a Norden Stamm dog there, irrespective of country. In fact, there is hardly a Dobermann kennel in the world incorporating European lines that has not benefited to some degree or other from this kennel's breeding excellence. And what makes this far-reaching influence all the more remarkable is the relatively small numbers of Dobermanns involved. The Norden Stamm kennel has only bred 60+ litters in 35 years.

## **Kalina vom Norden Stamm**

(Ch. & Sieger *Ebo v.d. Groote Maat*, SchH1 x  
Ch. & Siegerin *Alida v. Flandrischen Loewen*  
SchH3 FH)
